Executive Summary

Executive Summary

PITECO GROUP is an important player active in treasury & banking software market. It is developing a challenging internationalization and diversification process, driven by two business lines:

1. PITECO Spa, the leading Italian **Software House** for **proprietary solutions** to **Corporate Cash Management and Financial Planning** serving more than 600 large industrial groups active in a highly diversified number of business sectors (Banks and P.A. excluded)

PITECO has over **30 years** of market history and covers all different links on the software value chain: R&D, project, development, implementation, sales and assistance

PITECO provides **100% proprietary software: integrable** with ERP software (such as Oracle, SAP, Microsoft etc), **customizable** according to client needs and working in over **42 countries**

2. JUNIPER PAYMENTS LLC, **Software House**, leader in USA with **proprietary solutions for digital payment and clearing house services to approximately 3.300 American Banks**, managing the settlement of Interbank financial flows (bank transfers and checks collection) for over 3 billions USD per day. It can be considered one of the largest US interbank networks

JUNIPER **was established in April 2017** to acquire the business assets from LeandingTools.com Inc., a US company active in this business since 2000

PITECO GROUP FINANCIAL STATEMENTS H1 2018:

- **Revenues:** € 9,0 million, +19% (H1 2017: € 7,6 million)
- **EBITDA:** € 3,3 million, +28% (H1 2017: € 2,5 million); EBITDA margin 36%
- **Pre-tax Profit:** € 2,5 million, +209% (H1 2017: € 0,8 million)
- **Net Profit:** € 2,2 million, +120% (H1 2017: € 1,0 million)
- **Operating cash flow:** € 5,5 million (61% Revenues)
- **Net Financial Position:** € 5,1 million (FY 2017: € 6,5 million)
- **Net Financial Position including Put option:** € 7,5 million (FY 2017: € 8,9 million)

On July 31, 2015, Piteco Spa has been **listed** on **AIM Italia Market** with a **Global Offering** amounting to € 16.5 million (of which € 5 million in Convertible Bonds).

On September 25, 2018, Piteco Spa has been **admitted** on the main market (**MTA**)

section 2

Company Presentation

Presentation of PITECO

PITECO, which stands for "Pianificazione Tesoreria Computerizzata", has been **active for over 30 years** on the Italian market. It is the leading company in Italy for **design, development and implementation of solutions for treasury management** in terms of size, number of resources, range of services offered and managed customers

PITECO holds three operating locations (Milan, Padua and Rome) and more than **600 software installations**. Milan, the headquarter, coordinates the activities and hosts the customer care service

The company offers **four product families**. The first, **PITECO EVO**, presents an integrated solution for the management of corporate finance and consists of 17 different modules. The second, **CBC**, meets the requirements of efficient management of the workflows of companies towards national and international banks. The third, **MATCH.IT**, dedicated to analysis and matching of complex data flows

The last, **AT.PRO**, designed for middle and back office management of securities portfolio

Software sales (15% of annual revenues) allows PITECO to generate significant recurring revenues from maintenance fees (50% of revenues, steadily increasing year by year) and services with high added value (35% of annual revenues). These features and the large customer base, spread over several industries and characterised by **very high retention** and the constant growth of the company (it acquires approx. 30 new clients per year on average, mainly medium to large companies), enable the company to record a remarkable **EBITDA**

The potential market includes all industrial companies (no banks and no public administration) that consider treasury management important to oversee and enhance the treasury function in case they increase their revenues and need to track their cash flows

PAYMENT FACTORY

RISK MANAGEMENT

GLOBAL LIQUIDITY MANAGEMENT

SEPA

FINANCIAL SUPPLY CHAIN

SPECIALIZED SERVICES

Presentation of JUNIPER

Juniper Payments serves a specialized niche market of wholesale correspondent banking. The company is the market leader in this sector with **more than 3.300 banks and credit unions utilizing its online platform** software to transmit and receive daily transactions that total over \$3 billion. No other U.S. third-party service provider maintains connections to more financial institutions exception the U.S. Federal Reserve.

SaaS Model. All products and support are delivered as services over the Internet. The system is modular in design, so correspondents may add new modules to their product over time. These modules may then be enabled for all or for a sub-set of the end user financial institutions. This provides a highly customized and dynamic service to meet each customers specific requirements

Juniper's headquarters is in Wichita, Kansas (USA), with data center in Kansas and Nebraska. The company has 20 long tenured employees.

Juniper is:

- Regulated as Technology Service Provider under FFIEC by U.S. Federal Banking Agencies;
- SSAE 16 Type II audited.

Juniper has:

- Private Data Centers with a fully mirrored Disaster Recovery site;
- 99,999% uptime since inception of company.

Juniper's **business model** is based on **recurring revenues**. 90% of annual revenues are based on "right to use" services by end-users via principal customer contracts. The remaining 10% is due to customization fees and technical advisory and support. An average contract lasts generally for about 5 years or more and the contracts have a **very high retention rate**.

Growth Drivers

PITECO has identified a number of Growth Drivers during the IPO process:

- (1) NEW LARGE CLIENTS
- (2) NEW MODULES
- (3) ACQUISITIONS (M&A)
- (4) MID-MARKET
- (5) NEW MARKETS

(1) New Large Clients: company results confirm the committed growth.

(2) New Modules: PITECO will continue investing in R&D to offer other modules on top of the existing.

(3) Acquisitions on the national market: PITECO has acquired the Business Assets from Centro Data.

(4) Mid-Market: PITECO has developed a Cloud solution and a dedicated indirect sales force to broaden its offer into the Mid-market (companies with a turnover of € 50-100m).

(5) New Market (USA): PITECO has acquired the Business Assets from LendingTools.com (USA Company).

M&A activity

Business Assets from LendingTools.com

The company acquired the **Business Assets from LendingTools.com Inc.** with effect from **7 April 2017**. LendingTools.com Inc. is the leader in USA for digital payment services and clearing house to approximately 3.300 American banks and manages the settlement of interbank financial flows (bank transfers and checks collection) for over 3 billion USD per day. It can be considered one of the largest US interbank networks.

This acquisition, interesting on stand alone bases considering its revenues, growth perspectives and profit margins, has even more value considering the future integration synergies with Piteco product portfolio and the related combined offer.

On top of this strategy, Piteco will be able to speed up the development of the US Corporates market with its Treasury solutions in a more effective way.

PITECO

section 3.1

Software and clients

Client lifecycle

The typical client lifecycle consists mainly of 3 phases:

Acquisition: first project phase concludes the process with the sale of PITECO software and customization to client's needs. The average value of a typical contract is **€65.000** (€35.000 for software and € 30.000 for advisory)

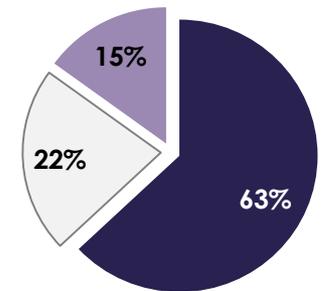

Maintenance: recurrent annual maintenance fee, on average **€11.000** (showing steady growth and inflation linked) and invoiced in advance

Upgrading: additional cross-selling of the current **20 software modules** which are part of total PITECO offer. The upgrading leads to a constant increase in the average annual maintenance fee

PITECO Evo: integrated with 17 modules

PITECO Evo is a platform dedicated to an integration of corporate finances to the most widespread ERPs. The 17 module offer is illustrated below:

| | | |
|--|--|--|
| CASH MANAGEMENT | BASE-CASH MANAGEMENT | Cash Management, Credit management and sensitivity analysis. |
| | HOME BANKING | Automatic reconciliation of banking transactions. |
| | MANAGEMENT SALES STORES | Management of banking transactions per sales store, both in an accounting and forecasting. |
| | CUSTOMER CASH ALLOCATION | Collection of customer invoices in the accounting system. |
| | ELECTRONIC CASH RECEIPTS | Active management of electronic cash receipts. |
| SOURCES AND APPLICATION OF FUNDS | TRADE PAYABLES | Accounting and financial process management for payments to suppliers. |
| | FINANCING & DEPOSITS | Analysis of accounts receivables, deposits towards clients or intercompany and sensitivity. |
| | MORTGAGE & LEASING | Mortgages and lending management with amortisation schedule and control of payments. |
| FINANCIAL CONTROL AND RISK MANAGEMENT | FACTORING | Credit management. |
| | LINE OF CREDIT | Credit management for personal details, type of use and cost, and calculation of commission. |
| | SURETIES | Management of various types of commitment and guarantee (bond, derivatives, contracts) |
| | LETTERS OF CREDIT | Import-export documentary credit management. |
| | FINANCIAL RISK MANAGEMENT | Management of currency and exchange rate risk of hedging operations. |
| | FINANCE INTELLIGENCE | Data extraction tool for fueling of external data warehouses. |
| | GLOBAL FINANCIAL REPORTING | Advanced tool for management of the financial reporting. |
| ECONOMIC & FINANCIAL PLANNING | CASH POOLING & IN HOUSE BANKING | Management of the different centralisation structures, including mixed assessment scenarios. |
| | ECONOMIC-FINANCIAL FORECASTING | Integrated capabilities for the forecasting of short- and medium-/long- term management |

Corporate Banking Communication CBC

Corporate Banking Communication (CBC) is PITECO's proposal to companies for efficient workflow management towards national and international banks.

The use of CBC allows:

Complete automation of authorisation workflows

- Compliance with procedures and business organisation
- Streamlining of the traditional authorisation procedures
- Improving the time required for the collection of authorisations in complex structures
- Using modern communications and authorisation systems

Safe management of workflows

- Centralisation in a single system for authorisation procedures of banking arrangements (payments, electronic bill payment and presentment etc...)
- Storage in a single database of all workflows transmitted (L.262)
- Secure workflow submission to the banking system
- Use of digital signature on workflows

Independence from remote banking

- Connectors with Remote Banking for the workflows automation that need to be sent
- Connectors with the Swift network using SWIFT Service Bureau LITE to send or receive workflows.

App CBC:

MATCH.IT

MATCH.IT is PITECO's proposal for efficient management of analysis and matching of complex data flows based on flexible matching criteria in automation.

Features and key benefits:

Technical and functional environment

- Semantic analysis of unstructured sequence of data.
- Guided acquisition, transformation and data upload for dynamic data flow treatment.
- Validation rules freely settable
- Learning curve allowing the system to improve data matching results.
- User friendly setup.

Flexibility

- Multiple payment disposals vs invoices/credit notes for GDO suppliers;
- Broker account statements vs issued insurance policies;
- Long/short term loans collection vs financing practices for Consumer Credit;
- Corporate billing vs collective collection for Multiutility;
- Front and back end data reconciliation for e-Commerce

Better performance

- Reduction of operational costs.
- Qualitative improvement of controls.
- Flexibility and optimization of resources.
- Improvement of traceability.

AT.PRO

Middle and back-office management

- Platform dedicated to middle and back office management related to securities portfolio. The securities are managed by financial characteristics and accounting targets.

Portfolio organization

- The securities are grouped in order to financial and management requirements.

Accounting

- Accounting of securities transactions and related flows

Enhancement by standard methodologies

- Portfolios and single assets are set according to both management and tax rules (civil, tax, market-to-market, fair value, IAS/IFRS).

Profitability analysis and performances

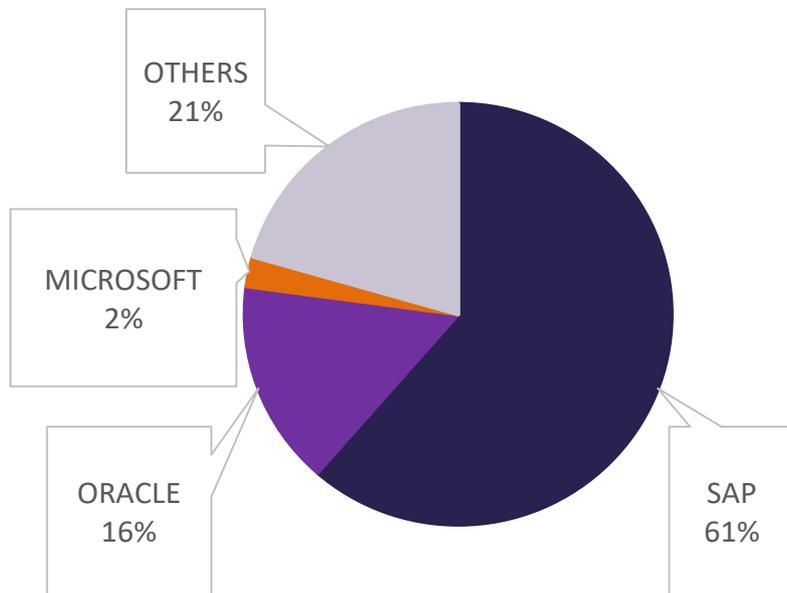

- Ability to perform profitability analysis and simulations oriented to decisional management.

Standard and non-standard reporting

- Reporting on user friendly Excel files. Possibility to add new reporting templates.

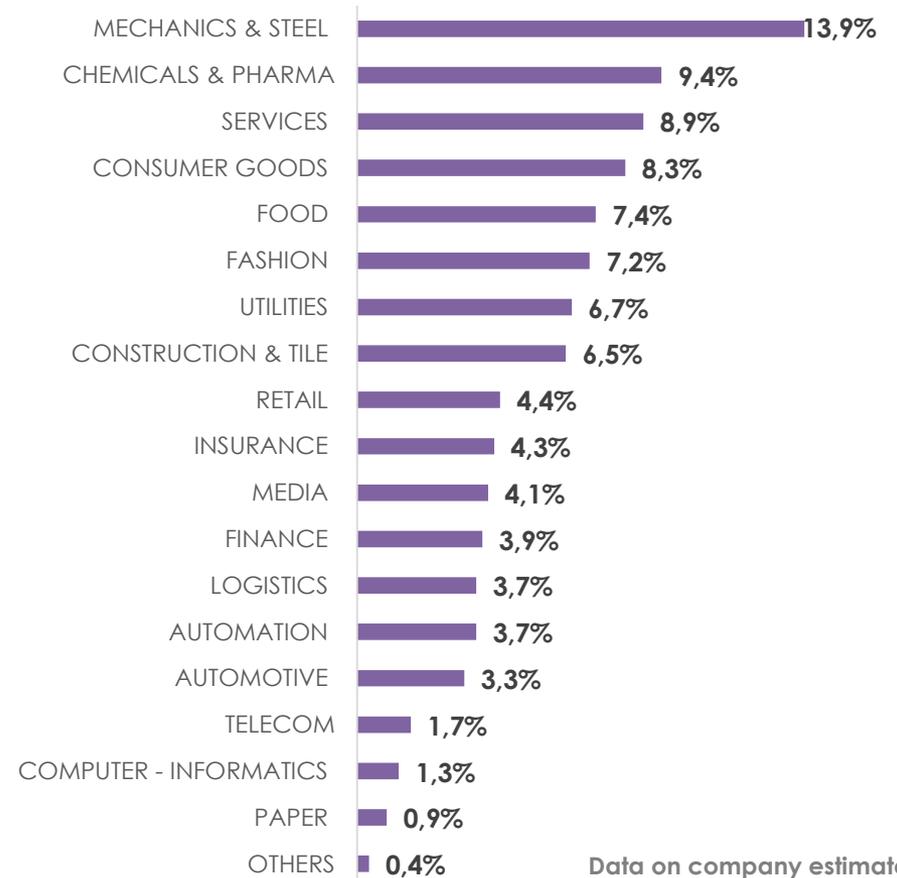

PITECO clients

ERP Breakdown of **Piteco clients**

Data on company estimate

Business sector breakdown of **Piteco clients**

Data on company estimate

- PITECO currently counts more than 600 clients well-distributed across all industries
- 100% of PITECO's clients already employ a management software (ERP)
- The three main management software tools (SAP, Oracle and Microsoft) count for approximately 80%

section 3.2

Market info and trends

Market sub-segments: management application software

SOFTWARE MARKET: € 6,2 billion

SYSTEM SOFTWARE

Software which guarantees basic functions (operative systems, e.g. MAC OS or Windows)

INFRASTRUCTURE SOFTWARE

Set of programs that act as intermediaries between different applications and software components

APPLICATION SOFTWARE

Programs used for office automation (e.g. Word, Excel), particular professional needs and assets (e.g. the treasury, warehouse management), creation of software, and optimisation of computer processes.

MANAGEMENT APPLICATION SOFTWARE: € 4,5 billion

ACCOUNTING SOFTWARE

STORAGE SOFTWARE

PRODUCTION SOFTWARE

BUDGETING SOFTWARE

MANAGEMENT & FINANCIAL ANALYSIS SOFTWARE

TREASURY SOFTWARE

Piteco
FINANCIAL SOFTWARE & CONSULTING

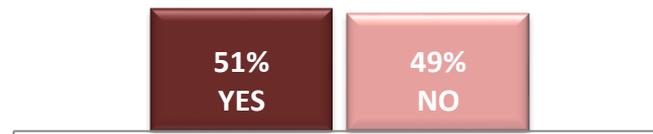

Future growth of the Treasury Management Systems industry

At this point we may say that TMS industry has only just begun to grow...

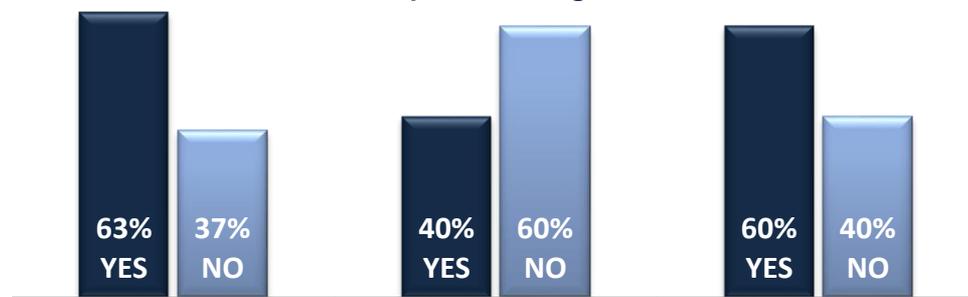

...As revealed by the latest survey published by Bloomberg in April 2016, **only 51% of the surveyed companies** already uses a Software to manage their Treasury (TMS).

Geographically analyzing this data we can notice a substantial maturity of the European market (63% uses TMS) in comparison to the North American one (only 40% uses TMS).

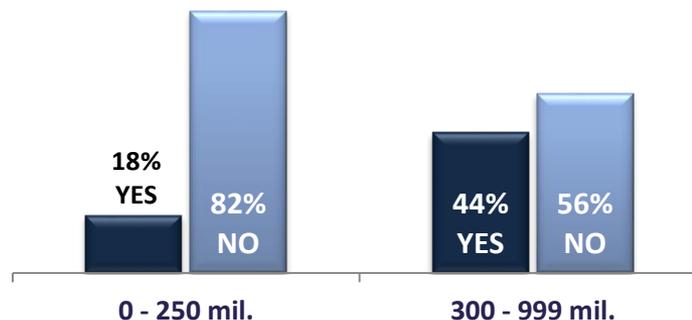

Companies using TMS

Companies using TMS

TMS use per corporate revenue size

Analyzing the TMS spreading by the corporates revenue size, we still observe a very low penetration in **companies with turnover <\$1 million**: only **18%** in companies with less revenue then \$ 250 mil and only **44%** in those up to \$999 mil.

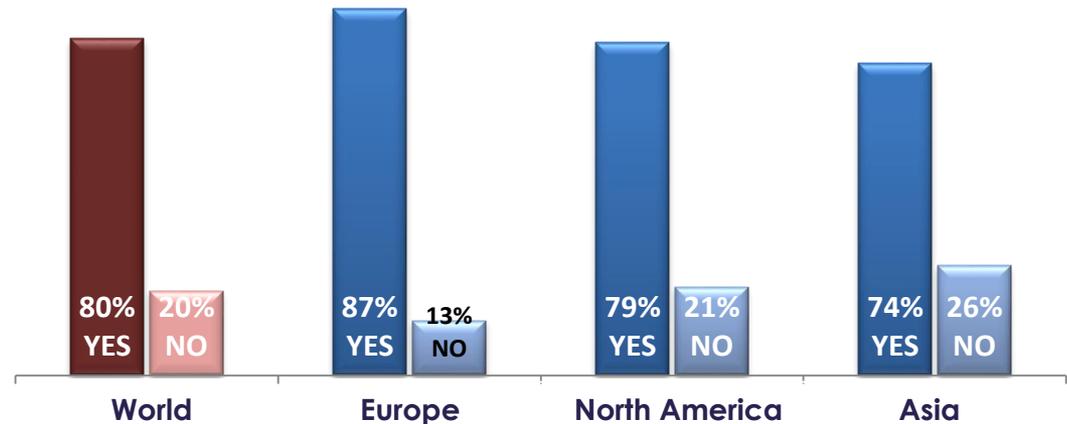

Current trends in the TMS industry

Corporates question when selecting a TMS

1. Specific Software or an ERP module?

To date, companies believe **it's strategic to use a specific software dedicated to Treasury (80%)**. Less popular is the approach of using or even adapting a module incorporated in companies' ERP (only 20% of companies).

Use of specific software in Treasury

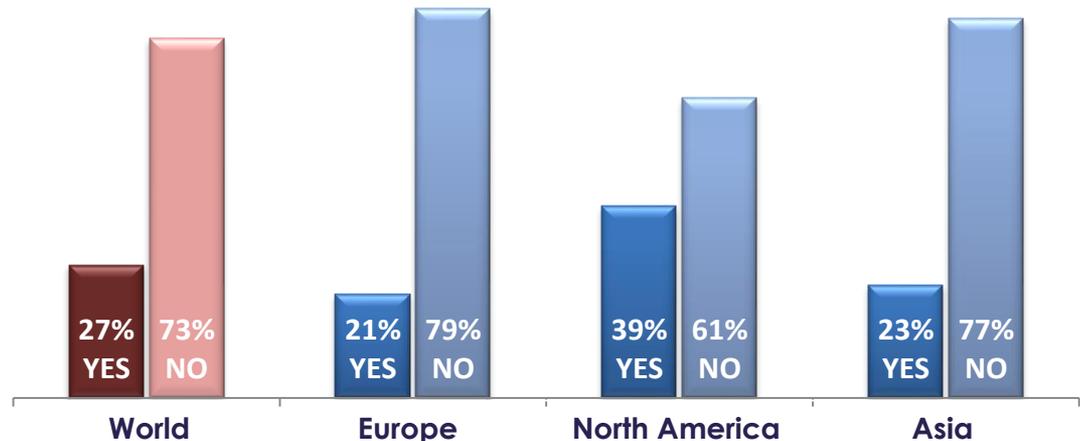

2. Cloud or not ?

The trend to use a Treasury software via **Cloud platform** is growing over time, although up **to date only 27%** of the surveyed companies are actually using it.

However, there is a higher penetration in the **US market, where already 39%** of the implementations is in cloud mode.

TMS in Cloud

JUNIPER

section 4.1

Software and clients

Client life cycle

The typical client life cycle consists mainly of 3 phases:

Sales: Process includes contracts that establish a recurring revenue annuity for services with correspondent customer as a subscription to utilize the software for its respondents. Additional contract revenue derives from one-time up-front purchase, implementation and integration fees associated with contract.

Maintenance: Monthly subscription billing provides recurring revenue for the duration of the contract period, which automatically renews.

Enhancements: Customers often purchase a subset of total Gateway offering in initial phase of implementation followed by purchase and implementation of additional modules over the contract period. This process included additional one-time purchase/implementation fees. Additionally, custom programming services are utilized to facilitate correspondent customer operational or market differentiation needs.

The lifetime renewal rate for customer contracts is nearly **85%**

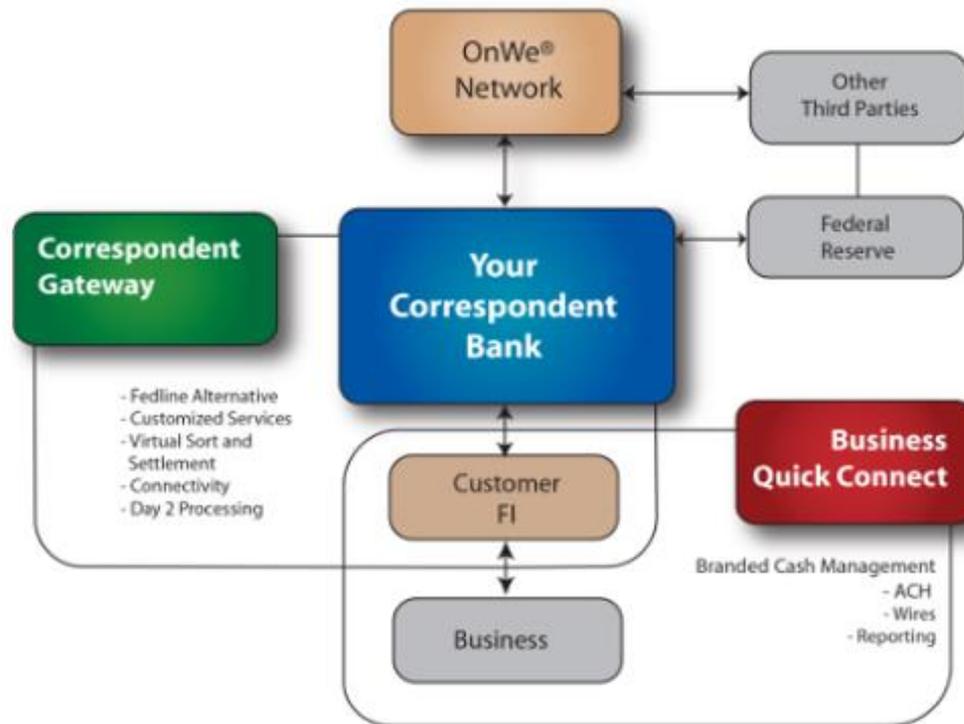

Multi-year contracts with automatic renewal

Juniper's product families

The company offers **two product families**:

The first, **ExtraNet FP-S**, enables correspondent institutions to provide all payments, reporting and communications necessary to simultaneously serve as the sole aggregation and settlement point for large numbers of respondent institutions. This online gateway receives transactions and data from core processing systems, the U.S. Federal Reserve and other third-party providers to streamline and automate the entire correspondent service delivery process.

The second, **ExtraNet FP-C**, provides an internet based platform for business ACH origination and wire transfers. This service is sold to community financial institutions as a basic platform to enable electronic payments for their business customers.

ExtraNet FP-S Correspondent Gateway

| | | |
|--|------------------------------|---|
| Administration and Control | ExtraNet FP-S Base System | Security, content and user experience management, |
| | Archival | Transaction retention and download |
| | Authentication | Extensive multi-factor validation including biometric scanning |
| | Secure File Management | Secure upload and transmission of files/documents |
| Payments Origination Transmission and Settlement | ACH Advance | Automated delivery/transmission to ACH Operator |
| | ACH Entry/Management | Origination/upload/validation/processing of ACH and auto-origination of files per pre-defined schedules |
| | International ACH - IAT | Origination of ACH transactions to US FedGlobal |
| | Domestic Wires – Live Wire | Automated wire transfers to/from US Federal Reserve |
| | Domestic Wires Entry | Origination/upload/validation of US wires |
| | Domestic Wires – FR-ETA | Origination/validation of US Electronic Tax wires |
| | International FX | Interfaces to various FX providers for foreign wires and currency |
| | Check Image Returns | Create check image returns from receipt files |
| | Check Adjustments | Online entry of check image correction adjustments |
| | Account to Account Transfers | Direct transfers between respondents |
| | Fed Funds/EBA Management | Online display/entry of overnight investment orders |
| | Vault Cash Orders | Online entry of domestic branch cash orders |
| | Foreign Currency Orders | Online orders buy/sell foreign currency, travelers checks, drafts, cash letters, collections, |
| ExtraNet CL | OnWe® Clearing Network | Check image direct exchange between respondents |
| ExtraNet FT | Secure File Transfer | Validation/transmission of check image files |
| Risk Management | OFAC Scanning | Immediate validation of ACH/Wires against US Treasury lists |
| | ACH Risk Management | Limits and reporting for ACH origination files |
| | Wire Risk Management | Limits and reporting for Wire transfers |
| | Trend Analytics ACH/Wires | Multi-day trend analysis for transactions/files |
| Reporting and Audit | Account Inquiry | Balance and transaction listing with core interface |
| | Real Time Interface | Immediate cash position of intra-day activity |
| | Report File Delivery | Unlimited report delivery classes - online/download |
| | Loan Payment/Advance | Submit and report payment and advance requests |
| | Credit Card Payment | Submit and report end user credit card payments |
| | Audit Trail | Complete tracking and reporting of every user action |

ExtraNet FP-C Business Quick Connect

Administration and Control

- Internet based platform for community financial institutions to business customers
- Modular structure and control available at multiple levels
- Includes multi-factor authentication and user level permissions and limits
- Operates as a stand alone offering or integrated into Juniper's FP-S transaction flow

Payments and Compliance

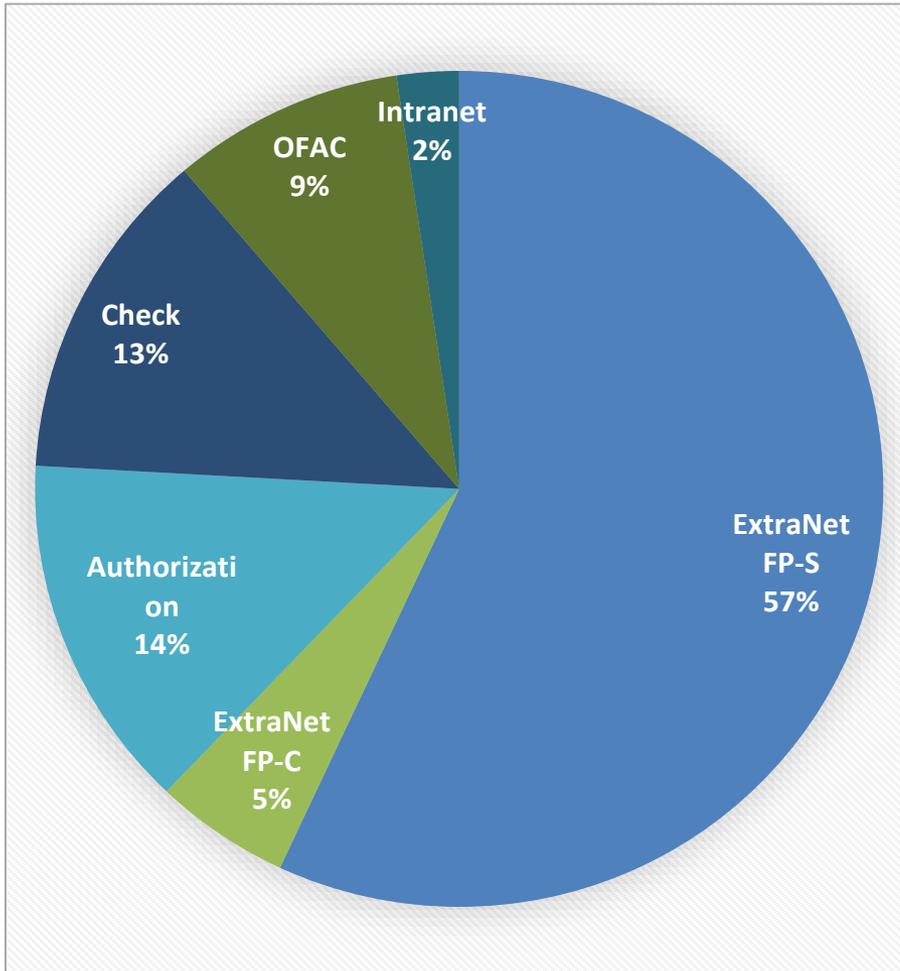

- Business customer entry level program for Automated Clearing House (ACH) and wire transfer payments
- Facilitates one-time payments, templates for repetitive payments and upload of formatted payment files from other systems
- Integrated Office of Foreign Asset Control (OFAC) scanning for compliance with regulations

Reporting and Audit

- Complete tracking of all activity in Audit Trail reports with multiple search options
- Report delivery to business customer level also included
- Account balance data available via BAI file import

Juniper clients
