Milan, 29<sup>th</sup> September 2020

The Board of Directors of PITECO, company listed on the MTA market leader in the financial software sector, today approved the consolidated financial report as of 30<sup>th</sup> June 2020, prepared in accordance with the IAS / IFRS accounting standards.

**Marco Podini**, Piteco's Chairman: "The very positive results achieved in the first half of 2020 (Revenues + 8%, Ebitda + 12%, Ebitda Margin reach 41%) highlight the positive characteristics of our Group, namely the innovation ability of its own products, which allow us to get a positive performance even in particularly difficult moments, as those in which the world economy suddenly slows down and some sectors go into crisis.

In the Italian cash management and financial planning market, the parent company PITECO SPA confirms its leadership thanks to an excellent performance both in terms of growth and margins (Revenues + 11%, EBITDA + 24%) and lays the foundations for further future growth, also thanks to the recent acquisition of the Everymake Business Unit with its innovative products in the intelligent data matching segment that joined the array of high value-added services already present in PITECO, increasingly necessary for the companies to face the competitive challenges of the market. If we add the significant diversification of the business sectors interested in the use of PITECO products, we complete the set of positive factors that have characterized the performance of the past half-year and bode well for the near future of our Group, which is also committed to important investments in the banking services sector with its American subsidiary Juniper Payments and in Financial Risk Management with the subsidiary Myrios Srl."

# **REVENUES UP + 8% DRIVEN BY TREASURY AND FINANCIAL PLANNING (+ 11%)**

Revenues amounted to Euro 12.0 million, recording an increase of 8% compared to Euro 11.1 million in H1 2019.

Noteworthy was the growth in the Treasury and Financial Planning sector where PITECO SPA recorded a revenues' increase of 11%, thanks to the liveliness of the market and the increasing interest in PITECO's products and services by Corporate clients.

The growth of the Banking Digital Payment Business Unit, headed by the American subsidiary Juniper Payments (+ 1% vs H1 2019), was temporarily slowed down by the well-known events of the first half of 2020 (COVID19 pandemic).

Nevertheless, the Financial Risk Management Business Unit, headed by the subsidiary Myrios, recorded an increase in revenues compared to the first half of 2019 (+ 4%).

Recurring fees increased by 5% compared to H1 2019 and continually account for a predominant part of total revenues (68%).

## EBITDA + 12%, CONFIRMING THE BUSINESS MODEL

**EBITDA** increased to Euro 4.8 million, 12% higher than in H1 2019 (Euro 4.3 million). **Ebitda Margin** rose to 41% compared to 39% in H1 2019, further confirming the reliability of the business model, characterized by operating costs growing less than proportionally than revenues, thanks both to the way to provide the service and the software's quality.

It should be noted that the increase in Operating Costs is limited to 5% compared to H1 2019 and is mainly linked to the increase in labour costs due to the recruitment of new resources to accelerate the launch of new products on the market.

**Pre-Tax Result** was equal to Euro 2.8 million, + 23% compared to H1 2019 (Euro 2.3 million).

Net profit increased by 13% to Euro 2.3 million, compared to Euro 2.0 million in H1 2019.

# GREAT CASH CONVERSION ABILITY: OPERATING CASH FLOW AT EURO 7.2 MILLION

In the first half **Cash Flows** confirmed the Group's strong cash conversion ability. In the first semester, the **Operating Cash Flow** amounted to Euro 7.2 million, representing 149% of EBITDA.

# NET FINANCIAL POSITION CLEARLY IMPROVED TO EUR 11.5 MILLION

**Net Financial Position** was Euro 11.5 million, clearly improved compared to Euro 14.6 million at 31.12.2019. In particular, there was a 70% decrease in the short-term NFP, although in the first half of the year dividends were distributed for a total amount of Euro 3.5 million, Euro 2.0 million was paid for the Earnout of Myrios and Euro 0.5 million for the purchase of the Everymake Business Unit.

Net Financial Position, including the value of the PUT options relating to the purchase of the residual 40% of the share capital of Juniper Payments LLC and the remaining 46% of Myrios Srl (the latter with a minimum payment of 50% through the assignment of PITECO Spa shares) amounted to Euro 24.4 million (Euro 27.5 million at 31.12.2019).

### SIGNIFICANT EVENTS SUBSEQUENT TO 30 JUNE 2020 AND FORESEEABLE EVOLUTION OF OPERATIONS

On 31<sup>st</sup> July 2020, the "Piteco Convertibile 4.50% 2015-2020" Convertible Bond, ISIN code IT0005119083, with a nominal value of 5 million Euro issued during the IPO in July 2015, was extinguished. Thus, as of today, there are no longer any Convertible Bonds outstanding. This event generated a further improvement in the NFP as a whole.

The domestic and international scenario today is still characterized by the spread of Covid-19, feeding a context of general uncertainty, which certainly does not lead positive effects on the economy. However, our reference market's expansion is confirmed, as the services offered by the Group's companies is becoming increasingly important in economic and financial uncertainty situations.

Thus, the Group's management is confident about the continuing revenue's growth in the second half of the year, also thanks to the innovative solutions recently launched on the market by the parent company Piteco Spa, confirming the investment strategy focused on technological innovation. **PITECO IDM** - **Intelligent data matching**, born from the union between PITECO's expertise and the skills stemming from the EVERYMAKE startup (acquired in March), is characterized by the innovative machine learning techniques, as well as cognitive computing, semantic analysis and robotization. **PITECO EVO 5.0**, the new version of the market-leading treasury solution, which contains, among other things, innovative features in the financial planning area and a renewed graphic layout with increasingly user-friendly techniques.
